

Window Measure Form

- When measuring for Inside Mount Shades, round the width down to the nearest 1/8" and round height up to the nearest 1/8"
- For Outside Mount Shades, add 2-3" overlap for the width on each side. Add 4" to the height of the window for proper mounting
- Measure width at top, middle and bottom and use narrowest measurement
- Measure height at left, center and right and use the longest measurement
